Professional Summary

I am a 24-year-old highly motivated individual with a deep passion for technology. With over 4 years of experience in sales, I have developed a strong understanding of market dynamics and customer needs. I have advanced my career in Media Buying and Web Development, successfully achieving significant sales milestones. I am highly proficient in office software (**Excel & Word**) with certified expertise, and I utilize AI tools (**Prompt Engineering**) to accelerate workflows and deliver high-precision results. I possess strong leadership skills in guiding teams to achieve business objectives effectively, and I am seeking an opportunity in a dynamic environment where I can contribute my technical, administrative, and leadership skills.

Professional Experience

Web Developer & Media Buyer | Feb 2020 – Present

- Manage advertising campaigns on **TikTok** and **Google Ads**, successfully generating over **SAR 100,000** in sales within just two months.
- Build and develop fast, business-oriented websites using AI tools for coding and content design to optimize delivery time and quality.
- Analyze data and monitor ad performance (**ROAS**) daily to ensure every riyal spent delivers maximum value.
- **Team Leadership & Direction:** Led a group of individuals in technical and marketing projects, responsible for organizing workflows, monitoring daily performance, and motivating the team to achieve targets with high quality.

Sales Specialist | Since 2020 (4 Years of Experience)

- Field experience in direct sales and customer persuasion, building strong long-term relationships and ensuring customer loyalty.
- Proficient in negotiation and **Sales Closing** techniques, consistently focusing on achieving required monthly targets.
- Handle work pressure and public interactions with flexibility and calmness, focusing on problem-solving and providing superior customer service.
- **Operational Leadership:** Supervised task coordination among colleagues to ensure a smooth sales workflow and successfully overcome field challenges.

Data Management & Office Operations

- Expert in high-speed and accurate data entry and processing for large-scale datasets.

- Utilize **Microsoft Excel** for advanced spreadsheet and report preparation, and **Microsoft Word** for organized digital archiving.
 - Integrated Artificial Intelligence to automate routine office tasks, enabling the completion of a full day's work in a few hours with zero errors.
-

Technical & AI Skills

- **Prompt Engineering:** Expert in utilizing AI tools to generate programming code, advertising content, and innovative business solutions.
 - **Digital Marketing:** Experience in setting up campaigns from scratch, tracking **ROI**, and optimizing ad performance.
 - **AI Content Creation:** Proficient in generating professional videos and images to support marketing and visual content.
 - **Leadership & Task Management:** Ability to lead groups, distribute roles, and manage digital projects efficiently.
-

Education & Certifications

- **Professional Certificate in Data Entry & Text Processing:** Practical mastery of **Microsoft Word** and **Excel**.
 - **AI Prompt Engineering Course:** Specialized in extracting maximum programming and creative value from AI models.
 - **High School Diploma:** Graduated with an **Excellent** grade (Class of 2019).
-

Personal Skills & Languages

- **Teamwork & Leadership:** Highly collaborative with the ability to build communication bridges to ensure project success.
- **Flexibility & Work Pressure:** Calmly handle work-related stress with a solution-oriented mindset.
- **Languages:** Arabic (Native), English (Upper-Intermediate/Professional level with ongoing development).
